SPECIALISTS FOR AUTOMATION

RLE ENGINEERING &
SERVICES

Strong teams for strong partners.

With us you will find suitable specialists for automation technology.

For almost 40 years, RLE Engineering & Services has been offering comprehensive recruitment and personnel placement services and placing highly qualified specialists with renowned employers.

We are part of the globally active RLE INTERNATIONAL Group, one of the leading development and consulting service providers for the mobility industry - with locations in Europe, North America and Asia. We successfully transfer our many years of experience in engineering and technology-oriented sectors to the automation technology environment.

We support companies in mechanical engineering, production, industrial automation & related areas in filling key positions with a deep understanding of the technical and organizational requirements of the industry.

We support you with suitable specialists for the following roles, among others:

- PLC programmers (m/f/d)
- Automation engineers (m/f/d)
- Commissioning engineers (m/f/d)
- Electrical planners (m/f/d)
- CAD specialists (m/f/d)
- Automation project managers (m/f/d)
- Industrial communication & system integration specialists (m/f/d)
- Software developers for control & instrumentation technology (m/f/d)
- Application & process engineers (m/f/d)
- Technical assistants & project coordinators (m/f/d)

Advantages for your company:

- Reduction of vacancies and relief for your specialist departments
- Access to qualified specialists with industry experience
- Relief for your internal recruiting and HR structures
- Flexible support during project phases, changeovers or new start-ups
- High process reliability for selection and staffing
