SPECIALISTS FOR THE AEROSPACE INDUSTRY

RLE ENGINEERING &
SERVICES

Strong teams for strong partners.

We can help you find the right specialists for the aerospace industry

For almost 40 years, RLE Engineering & Services has been offering comprehensive recruitment and personnel placement services and placing highly qualified specialists with renowned employers.

We are part of the globally active RLE INTERNATIONAL Group, which is one of the leading development and consulting service providers for the mobility industry - with locations in Europe, North America and Asia. Through our many years of experience, we have gained valuable insights that we have successfully transferred to various industries - e.g. aerospace. In addition to our core competence in the recruitment of engineering specialists, we have specialized in the aerospace industry in recent years.

We support civil and military aerospace companies in filling safety-relevant and highly specialized key positions - and thus

make an active contribution to the stability, scalability and compliance of your project and personnel structure.

We support you with suitable specialists for the following roles, among others:

- Development engineers for aviation/ structure/ cabin (m/f/d)
- System engineers for avionics, propulsion & aircraft systems (m/f/d)
- Calculation engineers (m/f/d)
- Design engineers with aviation experience (m/f/d)
- Specialists for certification, standards & aviation regulations (m/f/d)
- Quality engineers / auditors (m/f/d)
- Configuration managers (m/f/d)
- Project managers with an aviation background (m/f/d)
- Production planners & production controllers (m/f/d)
- Specialists (m/f/d) for documentation, verification & traceability

Advantages for your company:

- Access to specialists with experience in certified aviation environments
- Customized staffing along safety-relevant process chains
- Relief for your HR in approval projects and personnel bottlenecks
- Support with audit requirements, ramp-ups and series launches
- Selection processes with a focus on standard safety and documentation
