RLE ENGINEERING &
SERVICES

Strong teams for strong partners.

With us you will find suitable specialists for the construction industry

For almost 40 years, RLE Engineering & Services has been offering comprehensive recruitment and personnel placement services and placing highly qualified specialists with renowned employers.

We are part of the globally active RLE INTERNATIONAL Group - a leading development and consulting service provider for the engineering and mobility industry with locations in Europe, North America and Asia. We successfully transfer our many years of experience in engineering and mobility to the construction and infrastructure industry - with its growing need for planning reliability, efficiency and qualified specialists.

We support construction companies, project companies and engineering firms in filling key technical, planning and commercial positions and strengthen their project

teams precisely where technical expertise and adherence to deadlines are crucial.

We support you with suitable specialists for the following roles, among others:

- Site managers for building construction & civil engineering
- Project managers
- Architects
- Technical draughtsmen
- CAD designers
- Construction technicians
- Surveying technicians
- Specialists (m/f/d) for occupational safety on construction sites
- Technical project assistants & construction managers (m/f/d)
- Specialists for HOAI, VOB & BIM

Advantages for your company:

- Access to qualified specialists with experience in construction projects and regulations
- Tailor-made recruitment for technical and commercial positions - also project-related
- Relief for your HR department in the event of tight schedules or tender deadlines
- Flexible support during project peaks, construction phases and handovers
- Selection processes with a focus on construction site experience, compliance with standards & operational readiness
