SPECIALISTS FOR ELECTRICAL ENGINEERING & IT

RLE ENGINEERING &
SERVICES

Strong teams for strong partners.

We have the right experts in electrical engineering and IT.

For almost 40 years, RLE Engineering & Services has been offering comprehensive recruitment and personnel placement services and placing highly qualified specialists with renowned employers.

We are part of the globally active RLE INTERNATIONAL Group - a leading development and consulting service provider for the mobility industry with locations in Europe, North America and Asia. We transfer our technological know-how from the automotive, industrial, software and automation sectors to projects in the field of electrical engineering & IT.

We support electrical engineering, automation technology and IT companies in filling key technical, infrastructural and digital positions and are at your side as a reliable partner - flexible, forward-looking and needs-oriented.

We support you with suitable specialists for the following roles, among others:

- Electrical engineers (m/f/d)
- Electrical designers (m/f/d)
- Embedded software developers (m/f/d)
- PLC programmers (m/f/d)
- System architects and developers (hardware & software) (m/f/d)
- IT project managers & product owners (m/f/d)
- IT security & network administration specialists (m/f/d)
- Application & test engineers (m/f/d)
- IT support, helpdesk & system administration (m/f/d)

Advantages for your company:

- Tailor-made staffing in a rapidly changing technology field
- Access to specialists with experience in development, infrastructure & security
- Relief for your internal structures during digitization and growth projects
- Flexibility during project peaks, changeovers and short-term resource requirements
- Selection processes with technical understanding and industry knowledge
