RLE ENGINEERING &
SERVICES

Strong teams for strong partners.

With us you will find suitable specialists for the energy sector

For almost 40 years, RLE Engineering & Services has been offering comprehensive recruitment and personnel placement services and placing highly qualified specialists with renowned employers.

We are part of the globally active RLE INTERNATIONAL Group, which is one of the leading development and consulting service providers for the mobility industry - with locations in Europe, North America and Asia. Through our many years of experience, we have gained valuable insights that we successfully transfer to technology-driven industries such as the energy sector. In addition to our core competence in engineering, we have specialized in filling technical, regulatory and administrative roles along the energy value chain.

We support energy companies, grid operators, project sponsors and municipal energy suppliers in filling key positions and actively contribute to the implementation of their projects and the stabilization of their structures.

In this area, we are able to fill the following positions in particular:

- Project engineers for energy & environmental technology (m/f/d)
- Grid planners and specialists (m/f/d) for electricity, heat & gas grids
- Engineers for photovoltaics, wind energy & storage solutions (m/f/d)
- Specialists (m/f/d) for energy industry & regulatory requirements
- Technicians in grid & plant construction (m/f/d)
- IT experts for grid operation, monitoring & data integration (m/f/d)
- Project managers for energy infrastructure & generation (m/f/d)
- Specialists (m/f/d) for market communication, billing & customer service (m/f/d)
- Specialists for approval, environment & subsidies (m/f/d)
- Administrative & assistant staff (m/f/d) with industry experience (m/f/d)

Advantages for your company:

- Reduction in recruiting costs and relief for your HR and recruiting department
- Increase in incoming applications
- Reduction in vacancies and relief for existing staff
- Active support in coping with demographic change
