SPECIALISTS FOR THE HEALTHCARE SECTOR

RLE ENGINEERING &
SERVICES

Strong teams for strong partners.

With us you will find suitable specialists for the healthcare sector

For almost 40 years, RLE Engineering & Services has been offering comprehensive recruitment and personnel placement services and placing highly qualified specialists with renowned employers.

We are part of the globally active RLE INTERNATIONAL Group, which is one of the leading development and consulting service providers for the mobility industry - with locations in Europe, North America and Asia. Through our many years of experience, we have gained valuable insights that we successfully transfer to various industries - e.g. medical technology and healthcare. In addition to our core competence in the recruitment of engineering specialists, we have also specialized in the healthcare sector in recent years.

The industry is facing a growing shortage of skilled workers and increasing pressure to innovate - particularly with regard to digitalization, quality of care and efficient supply.

We support clinics, care facilities and healthcare providers in filling key positions and actively contribute to relieving and stabilizing their personnel structure.

In this area, we are primarily able to fill the following positions:

- Nursing staff (m/f/d)
- Medical assistants (m/f/d)
- Practice managers (m/f/d)
- Administration and billing specialists (m/f/d)
- IT specialists in the healthcare sector (m/f/d)
- Hygiene officers / QM specialists (m/f/d)
- Physicians on a temporary / permanent basis (m/f/d)
- Therapeutic staff (e.g. physio, ergo, logo) (m/f/d)
- Project managers for clinic digitization (m/f/d)

Advantages for your company:

- Reduction of vacancies & relief for permanent staff
- Access to tested, qualified specialists with industry experience
- Relief for your internal HR department
- Flexible solutions for short-term & long-term personnel requirements
- Strengthening your security of supply & competitiveness
