SERVICES

Strong teams for strong partners.

## With us you will find suitable specialists for your logistics company

For almost 40 years, RLE Engineering & Services has been offering comprehensive recruitment and personnel placement services and placing highly qualified specialists with renowned employers.

We are part of the globally active RLE INTERNATIONAL Group, which is one of the leading development and consulting service providers for the mobility industry - with locations in Europe, North America and Asia. Our many years of experience in technical and organizational projects enable us to place specialists in various industries - including logistics - in a targeted and efficient manner. In addition to our core expertise in the automotive and mechanical engineering industries, we have specialized specifically in the logistics sector.

Especially in times of global supply chains, growing demands for flexibility and digitalization as well as rising customer expectations, qualified personnel are the decisive success factor.

We support companies in the areas of transportation, warehousing, shipping and supply chain management in avoiding staff shortages and achieving sustainable growth.

In this area, we are particularly able to fill the following positions:

- Dispatchers (m/f/d)
- Forwarding agents (m/f/d)
- Logistics planners (m/f/d)
- Supply chain managers (m/f/d)
- Warehouse managers and warehouse logistics specialists (m/f/d)
- Warehouse specialists and order pickers (m/f/d)
- Fleet managers (m/f/d)
- Logistics project managers (m/f/d)
- IT specialists for logistics systems (e.g. SAP EWM, WMS) (m/f/d)

### Advantages for your company:

- Reduction of vacancies by quickly filling vacant positions
- Relief for your HR department through targeted pre-selection
- Access to a broad network of experienced specialists
- Support with the digitalization of your logistics processes
- Flexible solutions for seasonal fluctuations or project peaks
