RLE ENGINEERING &
SERVICES

Strong teams for strong partners.

We can help you find suitable specialists for municipal utilities and supply companies

For almost 40 years, RLE Engineering & Services has been offering comprehensive recruitment and personnel placement services and placing highly qualified specialists with renowned employers.

We are part of the globally active RLE INTERNATIONAL Group, which is one of the leading development and consulting service providers for the mobility industry - with locations in Europe, North America and Asia. Through our many years of experience, we have gained valuable insights that we successfully transfer to different structures - e.g. municipal utilities, network operators and municipal suppliers. In addition to our core competence in engineering, we have specialized in filling key technical and administrative positions in the utilities sector.

We support energy suppliers, network operators, water and waste disposal companies and municipal service providers in filling key positions - and actively contribute to the stability

and further development of their structures and supply solutions.

We support you with suitable specialists for the following roles, among others:

- Network planners for electricity, gas, water & district heating (m/f/d)
- Technicians and construction supervisors in network & pipeline construction (m/f/d)
- Project engineers for supply technology / generation plants (m/f/d)
- Specialists (m/f/d) for network documentation & GIS
- IT specialists (m/f/d) for network operation, billing & customer portals
- Employees (m/f/d) in the field of energy management & regulation
- Technical clerks
- Specialists (m/f/d) for customer service, billing & market communication
- HR and administrative staff (m/f/d) for municipal utilities
- Project managers for digitalization & infrastructure projects (m/f/d)

Advantages for your company:

- Access to qualified specialists and managers with utility experience
- Tailor-made recruitment for key technical and commercial positions
- Relief for your internal personnel structures during upcoming expansion projects
- Flexible solutions for operational stability and strategic development
- Recruiting with an understanding of municipal responsibility & regulatory requirements
