RLE ENGINEERING &
SERVICES

Strong teams for strong partners.

With us you will find suitable specialists for mechanical and plant engineering

For almost 40 years, RLE Engineering & Services has been offering comprehensive recruitment and personnel placement services and placing highly qualified specialists with renowned employers.

We are part of the globally active RLE INTERNATIONAL Group, which is one of the leading development and consulting service providers for the mobility industry - with locations in Europe, North America and Asia. Through our many years of experience, we have gained valuable insights that we successfully transfer to various industries - e.g. mechanical and plant engineering. In addition to our core competence in the recruitment of engineering specialists, we have specialized specifically in mechanical and plant engineering in recent years.

We support machine builders, plant manufacturers and system suppliers in filling key positions and actively contribute to relieving and stabilizing their personnel structure.

We support you with suitable specialists for the following roles, among others:

- CAD designers (m/f/d)
- Project managers in mechanical & plant engineering (m/f/d)
- Production planners / production planners (m/f/d)
- Development engineers (m/f/d)
- Electrical planners (m/f/d)
- Automation engineers (m/f/d)
- Quality assurance & documentation specialists (m/f/d)
- Technical draughtsmen (m/f/d)
- Technical assistants & project coordinators (m/f/d)

Advantages for your company:

- Reduction of vacancies and relief for technical departments
- Access to qualified specialists with industry experience
- Custom-fit staffing in development, design & project management
- Flexible support for project peaks & series start-ups
- Relief for your internal recruiting and HR structures
