RLE ENGINEERING &
SERVICES

Strong teams for strong partners.

Our team of experts can assist you in recruiting specialists for public institutions and municipal organizations

For almost 40 years, RLE Engineering & Services has been offering comprehensive recruitment and personnel placement services and placing highly qualified specialists with renowned employers.

We are part of the globally active RLE INTERNATIONAL Group, which is one of the leading development and consulting service providers for the mobility industry - with locations in Europe, North America and Asia. Through our many years of experience, we have gained valuable insights that we successfully transfer to public structures. In addition to our engineering expertise, we have specialized in filling administrative and technical roles in the public sector.

Growing cities, social expansion and the implementation of digital administrative structures mean that public bodies are faced with increasing personnel requirements - with limited resources and fixed structures at the same time.

We support you with suitable specialists for the following roles, among others:

- Administrative assistants (m/f/d) & clerks
- Project staff for digitalization, subsidies & urban development (m/f/d)
- Employees (m/f/d) in personnel administration & accounting
- IT specialists (m/f/d) for public bodies
- Assistants & coordinators (m/f/d) for offices and departments
- Employees (m/f/d) for citizens' offices, Service & reception
- Personnel and organizational developers
- Civil engineers & project managers in building construction and civil engineering (m/f/d)
- Specialist planners for infrastructure, environment or building management (m/f/d)
- Technicians & engineers in the fields of utilities, transport & energy (m/f/d)

Advantages for your company:

- Tailor-made staffing taking into account public structures & pay scale requirements
- Access to qualified specialists with administrative experience
- Relief for internal HR departments & specialist departments
- Flexible support for staff shortages and project peaks
- Clear processes, transparent communication and reliable collaboration
