SPECIALISTS FOR THE PHARMACEUTICAL INDUSTRY

RLE ENGINEERING &
SERVICES

Strong teams for strong partners.

With us you will find suitable specialists for the pharmaceutical industry

For almost 40 years, RLE Engineering & Services has been offering comprehensive recruitment and personnel placement services and placing highly qualified specialists with renowned employers.

We are part of the globally active RLE INTERNATIONAL Group - a leading development and consulting service provider for the mobility industry with locations in Europe, North America and Asia. We transfer our engineering and mobility experience specifically to the pharmaceutical industry. An industry in which quality, process reliability and regulatory expertise are crucial.

We support pharmaceutical companies, suppliers and laboratory service providers in filling key technical, scientific and regulatory positions and are at your side with practical advice, rapid implementation and technical understanding.

We support you with suitable specialists for the following roles, among others:

- Quality assurance (QA) managers (m/f/d)
- Regulatory affairs managers (m/f/d)
- GMP/GLP/GDP specialists (m/f/d)
- Production and process engineers (m/f/d)
- Laboratory managers (m/f/d)
- Scientific staff (m/f/d)
- Project engineers in the pharmaceutical industry (m/f/d)
- Industrial mechanics/mechatronics technicians (m/f/d)

Advantages for your company:

- Stable staffing despite shortage of skilled workers & regulatory pressure
- Precise recruiting with high documentation and quality requirements
- Relief for your HR during dynamic project and audit cycles
- More planning security in a highly regulated competitive environment
- Efficient processes thanks to industry-experienced contacts
