SPECIALISTS FOR SPECIAL MACHINERY ENGINEERING

RLE ENGINEERING &
SERVICES

Strong teams for strong partners.

We can help you find the right specialists for special machine engineering

For almost 40 years, RLE Engineering & Services has been offering comprehensive recruitment and personnel placement services and placing highly qualified specialists with renowned employers.

We are part of the globally active RLE INTERNATIONAL Group, which is one of the leading development and consulting service providers for the mobility industry - with locations in Europe, North America and Asia. Through our many years of experience, we have gained valuable insights that we successfully transfer to various industries - e.g. mechanical engineering and special machine construction. In addition to our core competence in the recruitment of engineering specialists, we have specialized in special machine construction in recent years.

We support manufacturers, project teams and system suppliers in special machine construction in filling key

positions and actively contribute to securing your development capability and delivery performance.

We support you with suitable specialists for the following roles, among others:

- Mechanical engineers for special machinery (m/f/d)
- Development engineers (m/f/d)
- Electrical planners (m/f/d)
- CAD specialists (m/f/d)
- Project managers and sub-project managers (m/f/d)
- Control and automation engineers (m/f/d)
- Commissioning engineers (m/f/d)
- Application and service technicians (m/f/d)
- Technical documentation specialists (m/f/d)
- Production planners and work schedulers (m/f/d)

Advantages for your company:

- Reduction of vacancies and relief for your specialist departments
- Access to qualified specialists with industry expertise
- Customized staffing in development, production and project management
- Flexible support for order peaks, customer projects and adjustments
- Relief for your internal recruiting and HR structures
